

The Joseph Interfaith Foundation
United in a Vision for Truth

"Hate Speech: The Border Between Rational Discussion and Irrational Hatred"

Freedom of speech is a necessity of university education. We don't promote hateful speech, but positive criticism and rational differences of opinion -political, religious or academic -are not hate speech.

Come and express your opinion and hear those of your fellow students.

These seminars are for the students and academics of each university only.

If you wish to have the seminar at your university, please email the Foundation
