**Manchester Arena Attack – Statement by Joseph Interfaith Foundation
23.05.17**

“The Joseph Interfaith Foundation, including its National Council of Imams and Rabbis, utterly and unreservedly condemns the cowardly and barbaric attack in Manchester last night.

The murder of innocent defenceless people and children fills us with revulsion. The perpetrator of this vile action and their perverted ideology is an aberration of all humanity and all religions.

We offer our prayers and condolences with a sorrowful heart to all the victims and families and friends of this abhorrent attack.

Let us all come together, regardless of age and belief, to further strengthen our efforts to remove chasms of hatred and build bridges of cooperation; and also let us remind ourselves not to condemn any community with "guilt by association".
